

CAMSO
AG 6500
FRICION DRIVE

Unmatched industry-proven performance, durability and reliability

Engineered for high-hour usage and the most demanding scraper, ripper, rowcrop and heavy tillage applications, the Camso AG 6500 is unmatched in performance, durability and reliability and will outperform any other track in the market. Best track life available, reducing cost per hour by 30% vs competitive products.

High-grade rubber compounds

Maximizes performance and durability

- Specifically engineered compounds for treads, carcass and guide lugs

Industry-leading main cables

Designed to resist high tractive effort

- The largest cable on the market (for 16.5" width, 18" width and scraper tracks), 24% more resistant than 2500/4500

Maximized guide lug geometry

Provides optimal guiding surface

- Guide lug geometry designed to OEM specification
- Increased side load resistance compared to 4500
- Optimized for side hill application

Optimized track carcass

Protects from punctures and debris ingestion

- Trackshield™ carcass technology allows for an increase of 20% in puncture resistance vs. 4500
- Eliminates downtime due to carcass tear

Versatile tread bar

Provides optimal traction and ride quality

- Balance between traction, cleanout and flotation

Longest lasting carcass

No material displacement during the manufacturing and curing process means:

- Track compound types located exactly where you need it
- Uniform tension distribution, eliminating downtime due to carcass tear

DRIVEN BY QUALITY

PERFORMANCE AND DURABILITY FROM THE INSIDE OUT

LONGEST LASTING CARCASS

No material displacement during the manufacturing and curing process means:

- Track compound types located exactly where you need it
- Uniform tension distribution, eliminating downtime due to carcass tear

THE RESULT: A FINISHED PRODUCT WITH INCREASED DURABILITY AND PERFORMANCE.
