

Similar to rebuilding an old engine, your track carcass and wheel cores can be remanufactured to OEM standards and perform like new replacement parts – all at a lower cost than new ones.

3 DIFFERENT WAYS TO BENEFIT FROM THE PROGRAM

BUY

remanufactured
tracks and wheels

REMANUFACTURE

your tracks and wheels

RETURN

your worn
tracks and wheels

Contact your local dealer or Camso Customer Service now to take part in the program.

NEW CAMSO CERTIFIED
**REMANUFACTURED
TRACKS AND WHEELS**

Camso certified remanufactured products provide you with an economical, effective and durable solution for general agriculture applications that will extend the use of tracks and wheels on their equipment.

NEW CAMSO REMANUFACTURED TRACK

Giving multiple lives to a product you've always trusted.

- Remanufactured from the best, longest-lasting carcass in the industry
- Using the same Camso original materials and quality
- Available for all friction drive tractors, 18", 25", 27.5", 30" and 36" in track width

NEW CAMSO REMANUFACTURED WHEELS

The broadest range of remanufactured PU midroller wheels for all track tractors.

- Remanufactured with the same Camso original materials
- Providing extended life and lowering operational cost
- Available for all tractors

NEW CAMSO REMANUFACTURED TRACK

Camso's unique single curing process

A finished product with increased durability and performance

No material displacement during the manufacturing process

High-grade rubber compounds

Improves resistance to cutting, gouging and tearing

Slows rubber wearing, aging and cracking

Combination of up to 6 specific compounds (treads, carcass, guide lugs)

Optimized guide lug geometry

Designed to OEM specifications

More guiding surface with Camso tracks

Tread bar

Long-lasting treads, up to 25 % better than the competition

Provides optimal traction, ride quality and life

GIVING MULTIPLE LIVES TO A PRODUCT YOU'VE ALWAYS TRUSTED
AND LOWERING YOUR OPERATING COST.
